Education	The University of Arizona <i>Bachelor of General Studies in Technology</i>	<i>Tucson, AZ</i> <i>May 2018</i>
Experience	Cognizant - Jr. Java Developer <ul style="list-style-type: none">• As a Jr. Java Developer, I work with an out of the box configuration system called Guidewire in order to work on existing Insurance systems.• Use tools such as GIT for version control, GOSU / JAVA programming languages, and an IDE that is very much like IntelliJ.• Communicate on a daily basis in team meetings and work within an environment based on Agile methodology.	<i>Nov 12, 2018 - Present</i>
Independent Projects	Quotation Service <i>Users have the ability to add, provide a vote, and heart their favorite quotes. Users also have the ability to create a personal account that enables them to have ten different quotes of their choice which is displayed in descending order by rating.</i> Personal Portfolio <i>Created my portfolio with HTML, CSS, JavaScript, and the framework of jQuery. Included the CSS Grid system along with CSS3's media queries for responsiveness.</i> Search with MVC <i>Web service that uses the Model View Controller Architecture. The purpose of this program was to populate data within a field and check the database whether or not information existed.</i> Website Redesign Concept <i>Yoshimatsu is a Japanese eatery in Tucson, AZ and during my time at the University of Arizona, I decided to redesign their website with HTML and the CSS Grid System.</i>	
Skills	<i>Languages – Java, Python, PHP, HTML, CSS, JavaScript, SQL, GOSU</i> <i>Data Technology – MySQL</i> <i>Operating Systems – Windows, Mac OSX</i> <i>Frameworks – Flask, jQuery</i> <i>Development Tools – GIT, Eclipse, IntelliJ, Sketch, GitHub</i>	
Relevant Coursework	<i>Introduction to Computer Science I</i> <i>Programming for Informatics Applications</i>	<i>Introduction to Computer Science II</i> <i>Web Programming</i>
Certifications	<i>Guidewire Certification Prerequisite – Insurance Suite 9.0 Fundamentals</i>
